Dear Supervisor,

I am currently conducting a study on “Stance-taking and Identity Construction in Supervisor-Supervisee Interaction: A Conversation Analysis”. In line with this, I would like to ask your assistance if you could allow me to record your conversation with your supervisee during research consultations.

The recorded conversation will be taken with utmost confidentiality. After the recording and data transcription, all conversations will be shown to you for verification purposes. If there are parts of the conversation that you wish not to be included then they will be deleted before the analysis.

Your participation in this research is greatly appreciated.

Thank you very much.

Sincerely,
Rami Maher Delli
