

Adakah strategi saya itu berkesan. Jika ya, kenapa? Jika tidak kenapa?
(Did I use an effective strategy?. If Yes, why? If no, why?)

Yes, helps me to remember the charges of the ions well.

Untuk jangka panjang, Saya akan kekalkan strategi/ tukar strategi memori. (jika tukar strategi, sila catatkan strategi yang baru)
For a long term, am I going to maintain the strategy/ change the strategy. (If change, specify the new strategy)

Yes. I will maintain my strategy - but if I find a better one I will change it.
