

ACKNOWLEDGEMENT

This work was carried out in the department of chemistry, University of Malaya from 2012 until 2013. The my first appreciation goes to Professor Dr.Wan Jeffrey Basirun, who supervised my work and for the appreciable help that he gave me within all these years for his valuable discussions and for the simulating ideas that I am grateful.

I would like to thank all of the people who helped me during these years specifically post doctorate Dr. Mehdi Ebadi and the PhD students Mr. Mehran Sookhakian, Mr. Saeid Baradaran And Mr. Yau Ching Koon.

I am also grateful to my parent, parents in law, family members and to my friends that supported and encouragement me all the time during my research project.

Finally, I have to appreciate Minerals and Geoscience Department Malaysia (JMG) and Public Service Department of Malaysia (JPA) for the study leave and allowances with bear all the studies costs.

Last but not least, my sweetheart wife, Anbarasi Sivalingam is not enough to express my gratitude for you. Thank you for your love and patience. More excitement of us is expecting our first child probably by earlier of July, 2013. Thank you, Anbarasi Sivalingam, for all the care during the preparation of the project report.
