

## LIST OF TABLES

|   |     |
|---|-----|
| Table 5.1 The absorbance (Abs.) values at 518 nm at difference concentrations                                     | 127 |
| Table 5.2 Free radical scavenging activity of new Schiff bases and the complexes using DPPH method (% inhibition) | 128 |
| Table5.3 The absorbance (Abs.) values at 593 nm at difference concentrations                                      | 132 |
| Table 5.4 Total Reducing Power of new Schiff bases and the complexes using FRAP method                            | 133 |
