

ACKNOWLEDGEMENTS

Praise be to God, The Most Gracious, The Most Merciful. I thank Him for everything given to me and I am grateful to be blessed with lovely people around me helping and supporting me in many ways.

Special thank goes to my supervisor, Dr. Sridevi Srinivass, who understands well my journey from attending her classes until the completion of this dissertation. May God bless you for your knowledge, support, encouragement and patience.

Thanks also to my family for understanding my role as a student, and the financial support during hard times.

Last but not least, to my friends who helped and supported me in different ways, may God bless you.
