CHAPTER ONE
GENERAL INTRODUCTION 1

CHAPTER TWO
LITERATURE REVIEW
2.1 Medicinal mushrooms 6
2.2 Pharmacological potential of medicinal mushrooms 7
2.3 Cultivation of medicinal mushrooms 8
2.4 Ganoderma 10
2.4.1 Ganoderma australe 11
2.5 Proteins from mushroom 12
2.5.1 Antimicrobial proteins 12
## CHAPTER THREE

### MATERIALS AND METHODS

#### 3.1 MATERIALS

3.2.12 Bioactive properties of purified protein

3.2.12.1 Determination of minimal inhibitory concentration (MIC) 52

3.2.12.2 HIV-1 Reverse Transcriptase inhibition activity assay 52

3.2.12.3 Deoxyribonuclease activity 53

3.2.12.4 Hemolysis test 54

3.2.12.5 Antifungal activity 54

3.2.12.6 Ribonuclease activity 55

3.2.13 Statistical analysis 56

CHAPTER FOUR

RESULTS

4.1 Fungal strain 57

4.2 Antimicrobial activities of powdery materials (PM) from ammonium sulfate precipitation.
   4.2.1 Antibacterial activity in primary screening 58
   4.2.2 Antifungal activity 61

4.3 Purification of protein with antimicrobial activity from

   *Ganoderma australe* strain KUM60813 61

4.4 Identification of purified protein 69

4.5 Bioactive properties of purified protein 70

   4.5.1 Minimal inhibitory concentration (MIC) of protein against

       *Escherichia coli* O157:H7 and *Salmonella typhi* 70
   4.5.2 Anti HIV-1 Reverse Transcriptase activity 73
   4.5.3 Deoxyribonuclease activity 75
4.5.4 Hemolytic activity
4.5.5 Antifungal and ribonuclease activity

CHAPTER FIVE

DISCUSSION

5.1 Cultivation of Ganoderma australe mycelia in submerged culture
5.2 Preparation of extract for antimicrobial activity test
5.3 Isolation, purification and identification of protein
5.4 Antimicrobial activity of PM and protein fractions
5.5 Antimicrobial activity of purified protein
5.6 Other biological activities of purified protein
5.7 Comparison of antimicrobial protein from Ganoderma australe with other Ganoderma species

CHAPTER SIX

CONCLUSIONS

6.1 Recommendation for Further Studies
6.2 Conclusions
