

LIST OF TABLES

Table No.		Page
2.1	Ceramics used in biomedical application	9
2.2	Mechanical properties of different ceramics	9
2.3	Progression of alumina (Al_2O_3) mechanical properties in the last four decades	12
2.4	Forsterite powder synthesis using sol gel method with different starting precursors	19
2.5	Forsterite powder synthesized by mechanical activation	20
3.1	The five referred JCPDS phases	62
