Anak anda dilahirkan dengan 100 bilion sel-sel otak yang bukan kesemuaunya telah berhubung. Hubungan antara sel-sel otak merupakan asas pembelajaran kerana anak anda dapat menimba ilmu pengetahuan melalui pengalamannya sendiri. Bantu anak anda untuk memaksimalkan hubungan antara sel-sel otaknya untuk pembelajaran yang lebih cepat. Annum Essential™ yang diperbaharui dirumus khas untuk menyokong keperluan pemakanan anak anda semasa peringkat tumbuh dan ia juga mengandungi nutrien-nutrien penting seperti berikut:

| Move 4: JP |
| Move 10: UA |
| Move 5.2: DP |
| Move 5.1: IP |
| Move 5.3: EP |

Translation into English:
[Your child is born with 100 billion brain cells and not everything is connected. The connection between brain cells is the foundation of learning for your child to gain knowledge through his own experiences.]
{Help your child to maximize the connection between brain cells for faster learning.}

Newly formulated Annum Essential™ is specially formulated to support your child’s nutritional needs during the growing stage and it also contains important nutrients as follows:
DHA – DHA is found in the brain. FOS and Inulin function as dietary fibre. Good intestinal is essential for the effective absorption of nutrients. Iron helps in the formation of red blood cells. Zinc is important for growth. Amnum Essential™ does not contain any added sugar. Vitamin A is to maintain healthy skin and essential for the function of the eye. Vitamin C is to increase iron absorption. Vitamin E protects fats in body tissues.

Move 4: JP
Move 5.1: IP
Move 5.2: DP
