In the Name of Allāh, the Most Gracious, the Most Merciful

I am grateful to Allah S.W.T for giving me blesses to finish this study.

I would like to express my special thanks to my supervisor, Prof. Dr. Wan Haliza Abd Majid, who brought me to this interesting and promising research field. I am grateful for her patient guidance, valuable advice and encouragement to keep me motivated to continue this study. Her comment and suggestion gave me much confidence in solving the problems to achieve a good research out come.

Financial support from Postgraduate Research Grant (PPP) University of Malaya for project number PS318/2009C is gratefully acknowledged.

I would also like to express my special thanks to my research-mates, Miss Nor Khairiah, Miss Siti Hajar and Miss Rehana, for their support in this research. Research facilities and technical support from our department are gratefully acknowledged. Many thanks to Mr. Gan for his kindness to help me in thermal deposition system.

Special thanks to my wife, Jamilah, for her patience and love, and my lovely son, Muhammad Amiruddin Darwisy. I would also like to dedicate a special thank to my mother, Pn. Siti Khosidah, my father, En. Mohd Sarjidan, and also to my parents-in-law for their love and encouragement. Without their love, bless and support, I would not be successful in the study.
