

LIST OF FIGURES

NUM	TITLE	PAGE
1.1	Distribution of Hepatitis C, Dengue, West Niles Virus around the world from http://www.utmb.edu	2
1.2	Schematic representation of the flaviviral polyprotein by Natarajan (2010)	5
2.1	Structure of flaviviruses and its components from http://virralzone.expasy.org	9
2.2	The flavivirus (+) RNA genome and the co-linear polyprotein	10
2.3	Classification of flaviviruses by Go (2014)	11
2.4	Vertebrate host and vector transmission cycle by Go (2014)	14
2.5	The global emergence of dengue or dengue haemorrhagic fever (WHO)	16
3.1	Source of flaviviruses sequences	20
3.2	Flow chart aligning protein sequences by using Clustal Omega online tool	22
3.3	Flow chart of identifying protease binding sites through literature research	23
3.4	Steps involved in identifying binding sites using PyMOL viewer	24
4.1	Multiple sequence alignment of flaviviruses	27
4.2	Surface representation of a classic His-Asp-Ser catalytic triads (His 51, Asp 75 and Ser 135) in West Niles Virus	28
4.3	Cartoon representation of a classic His-Asp-Ser catalytic triads (His 51, Asp 75 and Ser 135) in West Niles Virus	29
4.4	Cartoon representation of West Niles Virus structure with the catalytic triad represented in spheres.	29
4.5	Surface representation of His-Asp-Ser catalytic triads (His 57, Asp 81 and Ser 139) in Hepatitis C Virus	30
4.6	Cartoon representation of His-Asp-Ser catalytic triads (His 57, Asp 81 and Ser 139) in Hepatitis C Virus	31
4.7	Cartoon representation of Hepatitis C Virus structure with the catalytic triad represented in spheres.	31

4.8	Surface representation of His-Asp-Ser catalytic triads (His 51, Asp 75 and Ser 135) in Dengue Virus	32
4.9	Cartoon representation of His-Asp-Ser catalytic triads (His 51, Asp 75 and Ser 135) in Dengue Virus	33
4.10	Cartoon representation of Dengue Virus structure with the catalytic triad represented in spheres.	33
