## ACKNOWLEDGMENT

*First, I would like to express my sincere appreciation and thanks to my supervisor, Associate Professor Dr. A. Thillaisundaram, without whom the research paper could have been possible. He has been totally patient with my erratic timing and I am very grateful for that.*

*My exceptional appreciation also goes to the SLAB, Jabatan Perkhidmatan Awam (JPA) and the Management Services Division of International Islamic University (IIUM) for giving me the opportunity to complete my Master in Business Administration and the continuous financial support.*

*Perhaps, the largest is to my lovely husband, Md. Ashari Md. Aris, who over the years has given me every conceivable type of support in virtually infinite amounts. Not to forget, my charming kids, Anis Sofea and Afiq Sofean, who have provided me with inspirations and accepted the sacrifice of my precious time with them as a mother during the two years of this MBA course. To my parents, in-laws and Kak Mas for the tolerant and support. Without them, I would never be able to complete this research paper. Finally, yet importantly, to my family who have always encouraged me to strive for whatever goals I set for myself.*

*Above all, I thank God.*
